Connect with Icom at the Virtual Seattle Boat Show 2021

KIRKLAND, Wash. (January 2021) – With the world still in the midst of the COVID-19 pandemic, in-person trade shows remain on pause. But this doesn't mean that boaters have to stay cooped up. Since this event is virtual, everyone can [register](#) to attend the 2021 Seattle Boat Show *Connected*, January 28-31st. Start Online. End Up on the Water.

This year, some of our most popular marine radios will be showcased, such as the M605 fixed-mount VHF transceiver, which took home NMEA's Product of the Year award for the *fourth* year in a row in September 2020. Our MA-510TR Class B AIS Transponder will also be front-and-center for those interested in ultimate safety at sea. There will be show rebates on the M506 fixed-mount and M37 handheld radios, so you won't want to miss this year's event.

The virtual show will feature four days of boating, fishing, and Boat Show University seminars – over 100 hours of original content for boaters to enjoy. Plus, "watch seminars live, streaming on the site, chat and interact with other viewers and presenters. Plus, at most levels of registration, you can re-watch seminars if you missed them the first time. Boating and fishing seminars are 40 minutes in length and there are 68 to choose from. Boat Show University seminars take a deeper dive into northwest boating topics and are two hours in length, with 15 to choose from."

Traditionally, the in-person Seattle Boat Show features 400+ exhibitors with 200+ seminars for visitors from all over the world, with boats on display inside CenturyLink Field Event Center as well as boats afloat on South Lake Union at Chandler's Cove.

BRING IT ON.
